-----------------------	-------------------------	--	--	------------------	------------

		EE Type	Salaried	FLSA	Exempt
Location	Birmingham, AL	Department	Operations		
Reports to	CEO	Dotted Line Report	VP of Operations		

Position Summary

The EHS Manager is responsible for managing all aspects of environmental, health and safety programs to ensure a safe, healthy, and accident-free work environment by performing the following duties personally or through subordinate managers and supervisors. Coordinates workers compensation claims and facilitates claim reviews. Develop a partnership with each operating team across the US and Canada, ensuring a culture where concerns over employee safety is a priority.

Primary Accountabilities (Essential duties)

Actively develop a culture where employee safety is critical to high performance and the presence of an accident-free work environment.

Analyze monthly reports for injuries, worker's compensation claims, and environmental compliance. Implement and assure compliance with world class EH&S processes which utilize industry leading Best Practices.

Ensure timely regulatory compliance for all applicable Local, State, and Federal Regulations through a proactive approach developing the appropriate relationship with Local, State and Federal offices.

Through close alignment with plant managers and Vice President of Operation develop key tactics to realize the objectives of the EH&S program.

Report on progress, identify areas of potential improvement in EHS programs, develop and implement state of the art solutions to reduce risks and eliminate concerns.

Drives continuous improvement using tools and activities, including self-assessments and audit processes, incident/near miss investigations, metrics and targets (leading and lagging indicators), and periodic reviews of performance, culture, and talent.

Identify and ensure proper training is completed as required for each location.

Manage, support, and develop a team of EHS professionals across multiple locations. This includes providing coaching and training, setting goals, evaluating performance, planning staff assignments and development, and making and approving personnel management decisions (i.e., recruitment, promotions, terminations, and salary changes).

Secondary Accountabilities

Develop and implement policies and procedures in compliance with Local, State and Federal OSHA and EPA regulations in a proactive fashion

Develop and implement programs to train all employees in workplace safe practices, fire prevention, and correct handling techniques of all chemicals, toxins, and other materials needed within the manufacturing facilities

Position Title	EH&S Manager			Eff. Date	09/01/2021
-----------------------	-------------------------	--	--	------------------	------------

Prepares studies and analysis of industrial accident causes and hazards to health for use by company personnel and outside agencies

Audits facilities to detect existing or potential safety concerns and health hazards, determine corrective or preventative measures where indicated, and follows up to ensure measures have been implemented

Lead the investigation of all incidents and cooperate in the preparation of material and evidence for organization use in hearings, lawsuits, and insurance investigations

Compile and submit accident reports required by regulatory agencies

Oversees the administration of worker's compensation program, including working with the insurance carrier to reduce employee lost time and DART rates

Represent the organization in community or industry safety groups and programs

Maintain safety files and records for all sites

Implement a process with local and corporate engineers ensuring new equipment is designed with proper industry safety controls and labeled per standard

Represent the Company during any OSHA, environmental, or other related inquiries when needed

Forge and maintain effective relationships throughout the Corporate and Operations' management and team member ranks

Employee(s)/Group /Department Supervised: The position will lead local EHS personnel via dotted line reporting with site specific Plant Managers. The position will help develop the role and responsibility of plant site resources.
